DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July 10, 2006 has been entered.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the recitation "*or cams (31) or journals of the hollow body (30) or of the plunger are supported on a screw-thread (34) of the other components*" present in claims 1, 14, 23 24 and 27 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet"

Art Unit: 3683

pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

It is recommended that the above recited recitation be cancelled, since the claims now appear to read specifically on figure 5 and are no longer interpreted as being generic. Furthermore, it appears that claims 6 and 7 should also be cancelled.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1, 3-5, 13-16 and 23-30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

5. Regarding claim 1 line 11, it is unclear which of the plurality of components that the recitation "the other components" is referencing.

Claims 3-5, 13, 16 and 30 are rejected due to their dependence upon claim 1.

6. Regarding claim 14 line 11, it is unclear which of the plurality of components that the recitation "the other components" is referencing.

Claim 15 is rejected due to its dependence upon claim 14.

7. Regarding claim 23 line 10, it is unclear which of the plurality of components that the recitation "the other components" is referencing.

8. Regarding claim 24 line 10, it is unclear which of the plurality of components that the recitation "the other components" is referencing.

Art Unit: 3683

Claims 25 and 26 are rejected due to their dependence upon claim 24.

9. Regarding claim 27 line 11, it is unclear which of the plurality of components that the recitation "the other components" is referencing.

Claims 28 and 29 are rejected due to their dependence upon claim 27.

Allowable Subject Matter

10. Claims 1, 3-5, 13-16 and 23-30 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
